Purdue MRI Facility
Confidentiality Policy

For users who are themselves Purdue faculty or staff, confidentiality is already required by existing University policy. The University Policies on intellectual Property and on Research Misconduct establish that research and research data at Purdue is to be protected from intentional and unintentional disclosure. Thus, samples, products derived from samples, data obtained from the analysis of samples, and data and analyses obtained from a Facility user shall be considered confidential, and shall not be shared, published, reanalyzed, reprocessed, or in any other way shared, or used for additional analyses without the Facility user's express and written permission.

The relevant Purdue policies may be found at:
http://www.purdue.edu/policies/pages/teach_res_outreach/viii.4.1.htm
http://www.purdue.edu/policies/pages/teach_res_outreach/viii_3_1_print.html

For Facility users from outside of Purdue University, such as corporate partners, investigators from government, other universities, or any other type of institution, the same confidential treatment of research and data shall be applied within the Purdue MRI Facility. In this case, confidentiality is assured through execution of a confidentiality agreement with Purdue University. External users may contact either Kara Cornell [765 494-6210] or Mary Millsaps [765 494-1059], in the Sponsored Programs Office to begin this process. Assistance in establishing such agreements will be provided by the Manager of Operations (Dr. Gregory G. Tamer, Jr.) or the Co-Directors.
